

Easy DIY Bubble Wands

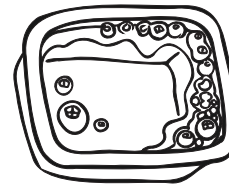

Kirra loves to blow bubbles, and she's inviting you to play!
Make your own bubble wands by twisting pipe cleaners into your favorite shapes.

What You'll Need:

Pipe cleaners

Bubble solution

Step 1:

Make a loop with your pipe cleaner, then twist to secure it in place.

Step 2:

Form the loop into a fun shape or leave it as is.

Step 3:

Twist the two ends together to form the base of your wand.

Step 4:

Dip into the bubble solution and have fun!

Play Tips!

Before trying out your bubble wands, ask your child what shape they think the bubbles will be.

Guess: how many of the small bubbles could fit in one of the big bubbles?

Try out new recipes for bubble solution. What happens when you add too much water? Or leave the sugar out?

Add beads to the bottom of the wand to decorate it. Remember to twist the end so they stay in place!
